

7TH GENERATION ROBOT BARISTA

THE ROBOT BARISTA

Specialty-grade coffee, brewed entirely by a robot — 54 seconds a cup,
zero human error, running 24/7.

Generation 7 · COFE+ Robot Café

PATENTS

— THE OPPORTUNITY

COFFEE IS BOOMING. THE CAFÉ MODEL ISN'T.

Demand for quality coffee keeps climbing — but the traditional café that serves it is expensive, inconsistent, and hard to scale. Four structural costs cap every location.

70%+

Cost is people & rent

Wages, rent and fit-out dominate café P&L, squeezing margins on every cup.

~8–10h

Limited hours

Staffed hours cap revenue. Peak queues turn customers away; off-hours sit idle.

Inconsistent

Drink quality

Taste swings with the barista, the shift, and the day. Quality is hard to standardize.

Slow

Hard to scale

Every new site means hiring, training and build-out — capital and time intensive.

— MEET COFE+

A FULL ROBOT CAFÉ THAT RUNS ITSELF.

COFE+ is a fully autonomous robotic café. A 6-axis robotic arm takes freshly-ground espresso and milk, adds fresh ice, finishes latte art and serves — with no human barista on site. One compact unit replaces an entire coffee shop.

Autonomous · no staff on site

24/7 · always open

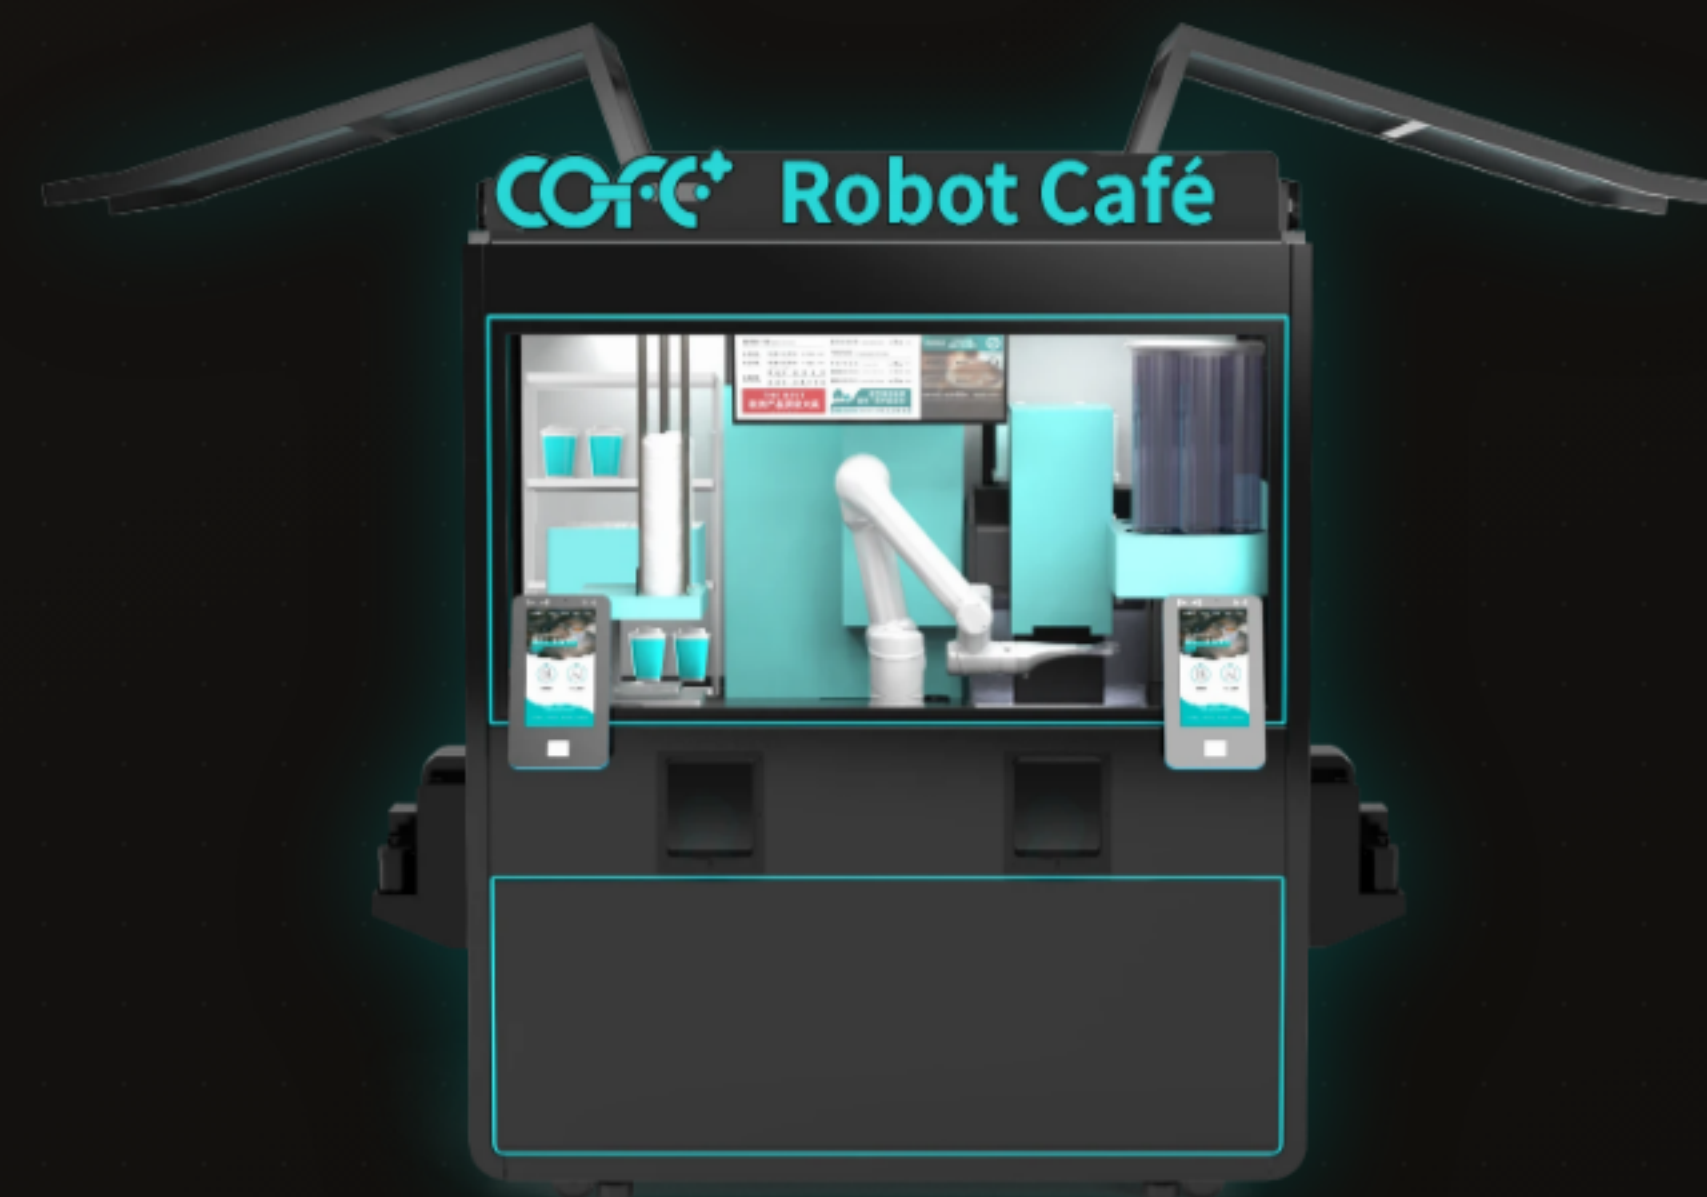

2.35m* · fits anywhere

8 Categories · coffee, Matcha, Chocolate, Milk Tea & More

300+ Drinks Available · adaptable for global taste buds

5000+ Customizations · your Drink, your choice

Cashless · app & screen ordering

Fully enclosed robotic café — dual self-order screens, central barista arm, grab-and-go pickup lockers

— SPEED & THROUGHPUT

BUILT FOR THE RUSH.

Smart algorithm lets the robot make up to five cups at once — sustaining café-level volume without a queue, around the clock.

54s

Average per cup

Grind, brew, finish and serve in under a minute.

5

Cups at once

Parallel builds in a single 50–55s cycle.

1,000

Cups per day

Proven throughput in real deployments.

24/7

Always on

No shifts, no breaks, no closing time.

DAILY CAPACITY VS. A STAFFED TWO-BARISTA BAR

— MAN VS. MACHINE · SHANGHAI HONGQIAO

IT BEAT ELITE BARISTAS.

In a live showdown at Shanghai's Coffee Culture Festival, the 7th-gen COFE+ went head-to-head with a TOC-grade competition judge on three cups.

ELITE HUMAN BARISTA

3:35

Three cups · 71s per cup

VS

7TH-GEN COFE+

2:43

Three cups · 54s per cup · ~1.3× faster

0.3%

Error rate

Weight deviation of just ±0.8g across cups — repeatable to the gram.

100%

Consistency

Every cup identical: same dose, same temperature, same pour.

1.3×

Faster

Quicker than a championship judge — while multitasking five builds.

— A MENU WITHOUT LIMITS

300+ DRINKS · 8 CATEGORIES 5,000+ WAYS TO CUSTOMIZE.

From freshly ground espresso to matcha and plant-based lattes — signature recipes from 197 countries, dialed in per order.

- | | |
|-----------------------|------------------------|
| ● Fresh-ground coffee | ● Milk tea |
| ● Matcha | ● Chocolate |
| ● Plant-based milks | ● Coffee–tea blends |
| ● Latte art | ● 3D-printed milk foam |

Latte art & photo-quality 3D foam printing — hearts, tulips, logos and portraits, printed on the crema

- 197 country recipes
- 2–4 milk
- 6–8 syrups
- 4–7 toppings

— UNDER THE HOOD

ENGINEERED TO THE GRAM.

Every subsystem is purpose-built and orchestrated by an on-board smart algorithm — so quality never depends on who's working.

01

6-axis robotic arm

Proprietary arm executes grind, tamp, and pour — even hand-poured latte-art patterns.

02

Dual bean hoppers

Two hoppers run multiple bean varieties, so espresso and single-origin live side by side.

03

Modular ingredients

2–4 milks, 6–8 syrups and 4–7 toppings combine into thousands of made-to-order drinks.

04

High-res 3D foam printing

Prints photo-quality images directly onto milk foam — logos, faces, seasonal art.

05

Smart algorithm

Schedules up to five parallel builds and holds $\pm 0.8g$ precision on every pour.

06

Remote monitoring

Cloud dashboard tracks stock, sales and health — one operator oversees a whole fleet.

07

UNIT ECONOMICS

UP TO 90% LOWER OPERATING COST.

	TRADITIONAL CAFÉ	COFE+ ROBOTIC CAFÉ
Staffing	3–6 baristas per site	1 operator monitors 10 units
Hours	~8–10 hrs, staff-limited	24 / 7, fully unattended
Footprint & fit-out	40–120m², heavy build-out	2.35m², plug-and-serve
Daily upkeep	Cleaning, prep, cash-up	~15 min restock per unit

90%

Lower opex

Less wage, rent and fit-out per cup.

10:1

Units per operator

One person remotely runs a fleet of ten.

15 min

Daily restock

The only on-site task, once a day.

— FITS ANYWHERE · SIX FORM FACTORS

2.35m² IS ALL IT TAKES.

2.35m²

Total footprint —
smaller than a parking bay

WHERE IT GOES

- Airports & transit hubs
- Business districts & offices
- Corporate campuses
- Universities
- Malls & high-traffic retail

A MODEL FOR EVERY SITE

Standard Robot Coffee Kiosk

Relocatable for events and pop-ups.

Outdoor Robot Coffee Kiosk · South

Weather-ready build for warm climates.

Outdoor Robot Coffee Kiosk · North

Insulated build for cold climates.

Robot Coffee Counter

Smallest footprint for tight spaces.

Robot Coffee Bar

The first sit-down, staff-free robot café that unfolds from a counter.

Corner Robot Café

Drops into an unused corner of any street.

— THE ROBOT BARISTA RANGE

A MODEL FOR EVERY SPACE.

One robotic barista, five ready-to-deploy formats — from a compact street kiosk to a full seated coffee bar.

01
Standard Robot Coffee Kiosk

The all-in-one flagship — a complete café in 2.35m² that opens for business the moment it's switched on.

02
Outdoor Robot Coffee Kiosk

Weatherproof and street-ready — pours rain or shine, day or night, on any plaza or promenade.

03
Robot Coffee Counter

The barista, minus the bar — a clean drop-in counter for lobbies, offices and retail floors.

04
Robot Coffee Bar

A social centrepiece — pull up a stool and watch every cup crafted live at the robot bar.

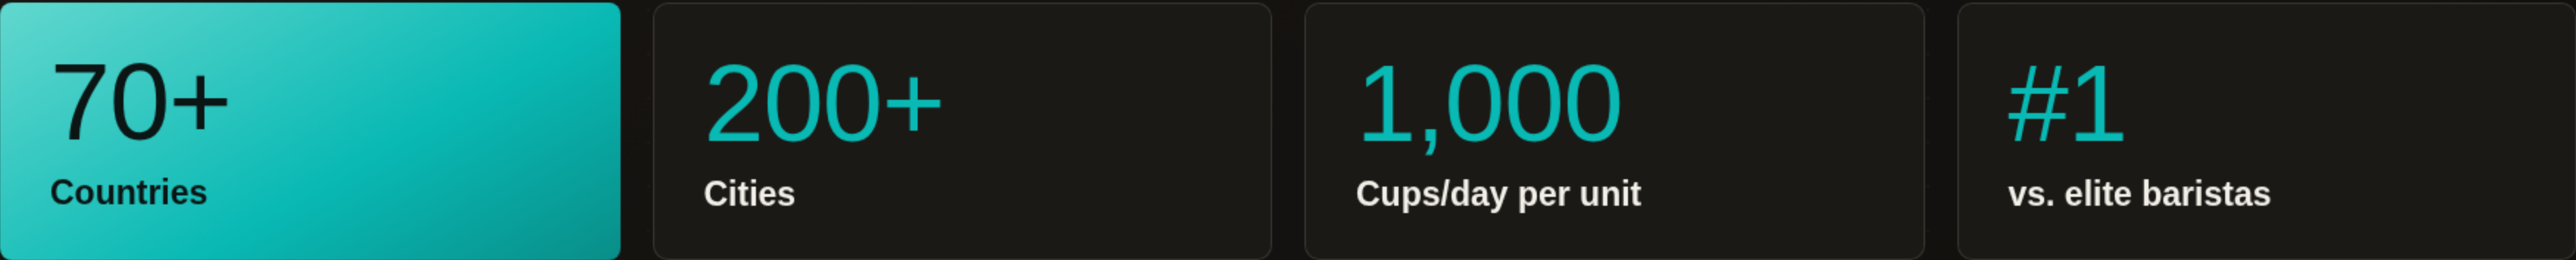

05
Corner Robot Café

Turns any street-facing wall into a 24/7 café — grab-and-go coffee that fits the tightest corner.

— PROVEN, WORLDWIDE

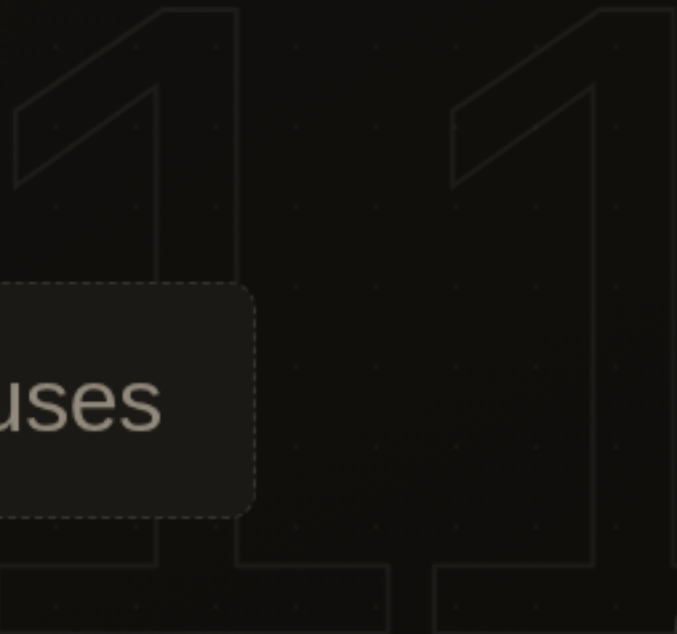

SERVING 70+ COUNTRIES.

From airports to Ivy League campuses, COFE+ is already pouring at scale for some of the world's most demanding venues.

TRUSTED AT

— PROVEN ACROSS EVERY SECTOR

TRUSTED WHERE IT MATTERS MOST.

Healthcare

HOSPITALS · ROUND-THE-CLOCK CARE

Massachusetts General — the world's #1 hospital — ran the first 6th-gen robotic café; **Texas Children's** serves ER teams at 2 AM. Also Shanghai Sixth, Renji, Air Force & Kuala Lumpur hospitals — 10+ hygiene technologies, all food-grade certified.

Transportation

AIRPORTS · 24/7 TRAVEL HUBS

Denver International (4th-busiest U.S. airport) and **Shanghai Hongqiao** run unattended 24/7; **Chişinău, Moldova** reached full ROI in 4 months at 200+ cups/day. Plus Brussels, Kuala Lumpur, Hangzhou & Kunming.

Corporate & Enterprise

FORTUNE 500 WORKPLACES

Deployed at **SAP**, **Amazon**, **Google**, **Sodexo** and **Compass** — plus Sinopec, China Mobile and Bank of China — following partnerships with Harvard and Mass General.

Global Events & Forums

THE WORLD STAGE

Invited to serve at the **World Economic Forum (Davos)**, the **Asian Games**, **APEC Summit** and **Expo 2020 Dubai**.

Education

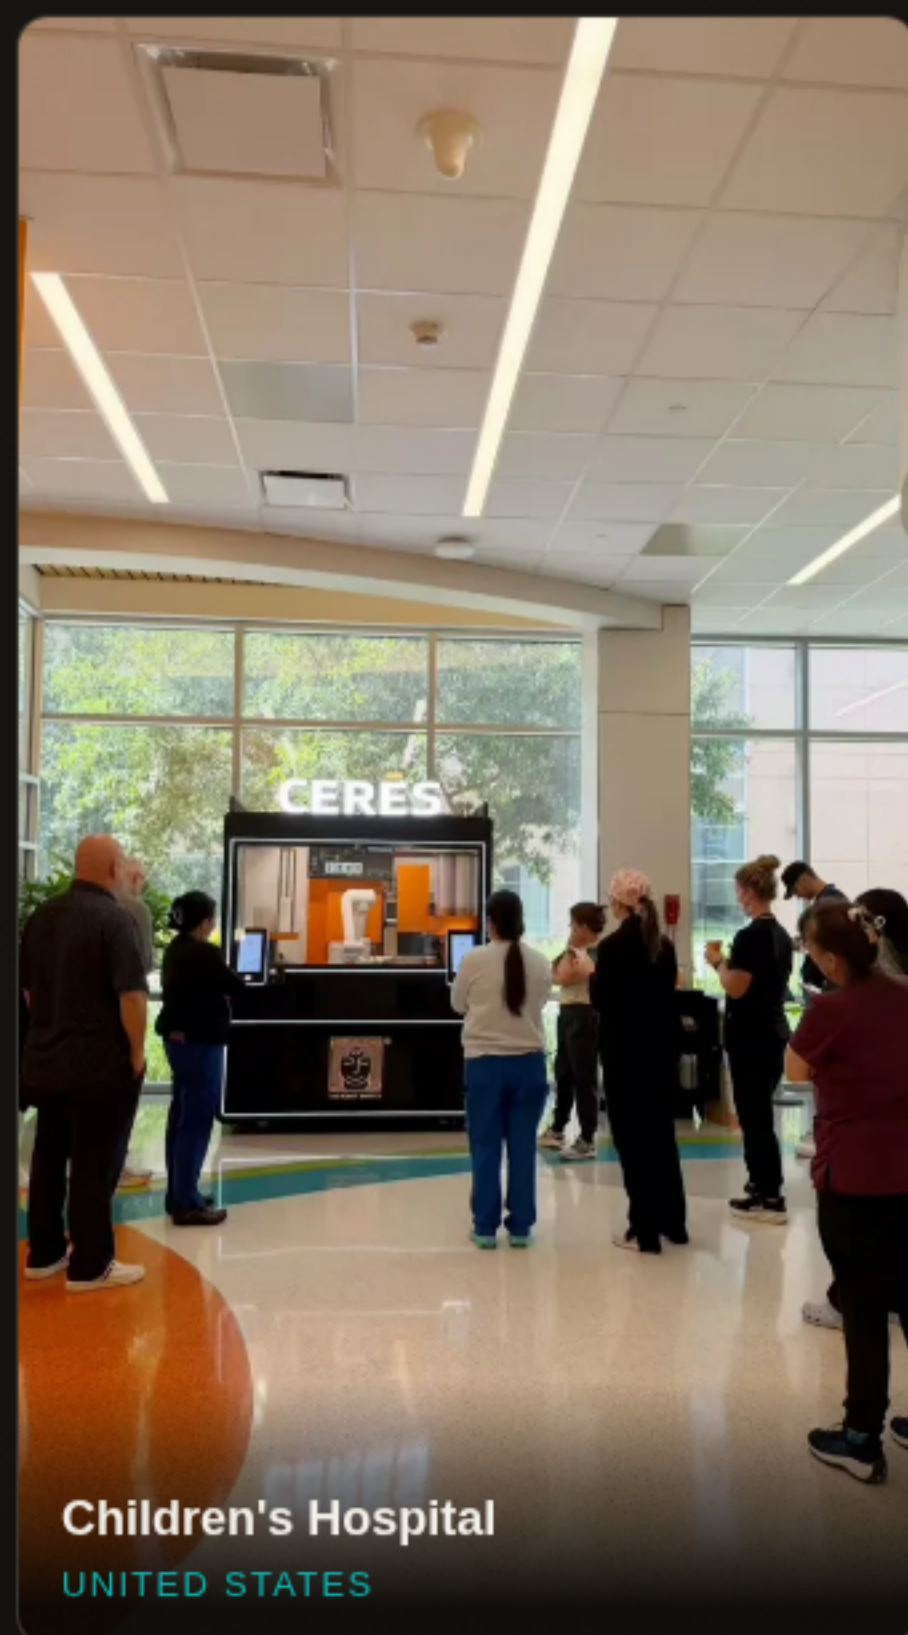

UNIVERSITIES · 24/7 CAMPUSES

Harvard, **NUS Singapore**, **Univ. of Hong Kong** and **Texas A&M**; **Tongji** runs 10 units across 5 campuses at 90% lower cost. Plus SJTU, Fudan, University of London & Monash.

— REAL PLACES, REAL CUPS

1,000+ ROBOTS, LIVE WORLDWIDE.

From hospital lobbies and travel hubs to lakeside parks and shopping malls — COFE+ is pouring for real customers, right now.

— RESPONSIBLE BY DESIGN

THE GREEN GIANT OF COFFEE.

COFE+ is built to the strict environmental standards of the U.S., Europe and Japan — engineered to serve responsibly, at scale, around the clock.

WHY IT MATTERS

One robot, a fraction of the footprint.

No daily over-production, no shift waste — a compact unit built from recyclable materials and professionally recycled at end of life.

95%

Recyclable materials

Designed for a circular, low-waste lifecycle.

100%

Professional waste handling

Every by-product responsibly processed.

US·EU·JP

Environmental compliance

Meets the toughest green standards in three major markets.

— THE CAFÉ, REINVENTED

COFFEE THAT RUNS ITSELF — ANYWHERE, ALL DAY.

A specialty café in 2.35m²: 54-second cups, 1,000 a day, 90% lower cost. Let's put one where your customers are.
